## Join Us . . .

How we view the world and respond to it is based on the viewpoints of our personality types and the patterns formed by them, combined with our own unique 'essential self'.

**What is the Enneagram (pronounced Any-a-gram)?**  
It's a powerful overview of 9 distinct personality types; each with its own strengths, challenges, motivations, and positive paths for growth. Taught worldwide, it crosses gender and cultural lines.

**What can the Enneagram do for you?** Know yourself as never before; learn about others; enhance communication skills; make better decisions; resolve conflicts—internal and external; respond better to challenging situations; improve your relationships.

In this three-hour Introduction, in addition to an overview of the system, you will learn about the motivational core set-up of each of the nine types. And, since there's no better way to learn than from the types themselves, you will hear from 3 exemplars of each type (via video).

### Workshop Benefits

- ▶ By the end of this introduction participants report that they have either found their type, or have it narrowed down to two.
- ▶ For those already familiar with the Enneagram this intro serves as a powerful review and delivers further understanding of the types.
